

Sequence Diagrams

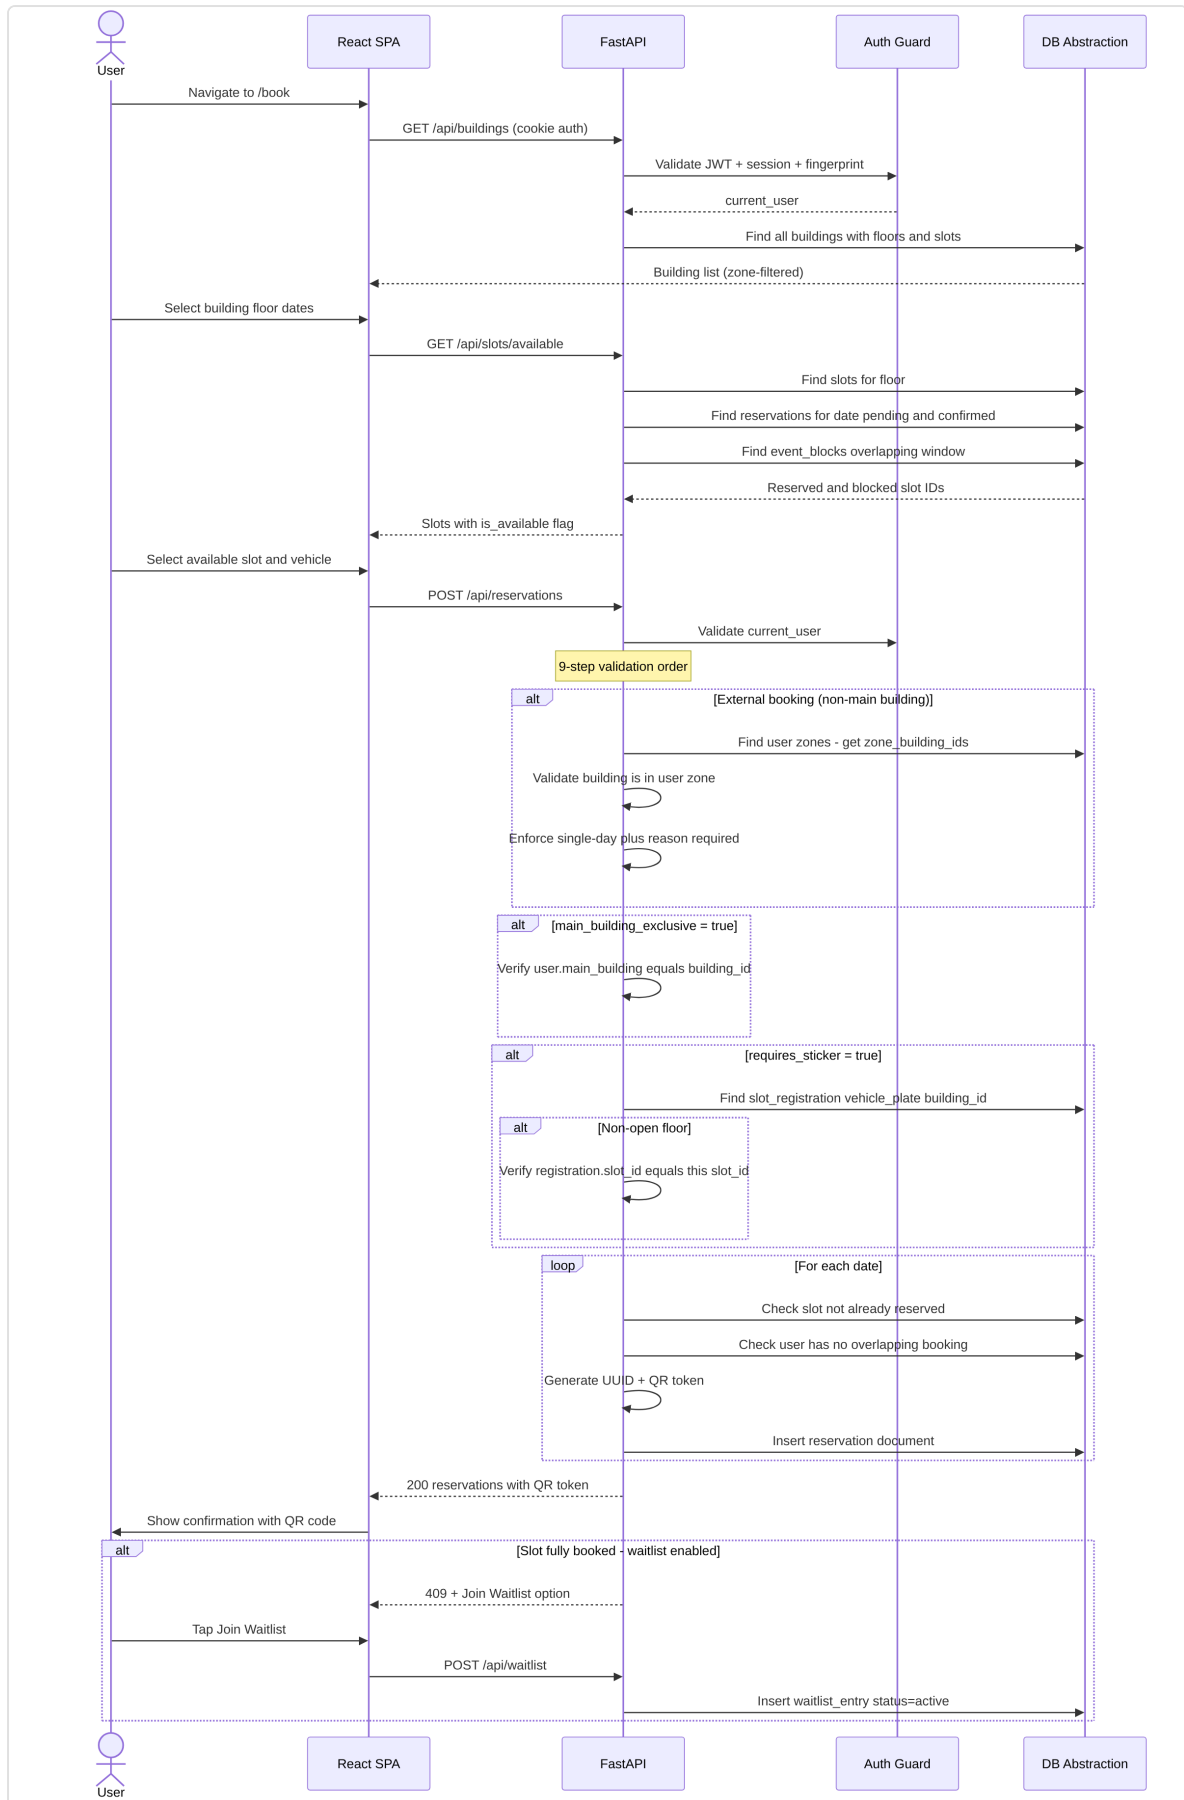

Related: [System Design](#) · Last Updated: May 12, 2026

All diagrams use Mermaid syntax, compatible with GitHub Markdown rendering. The participant **DB** represents the **DB Abstraction Layer** which speaks to MongoDB or Couchbase depending on **DB_TYPE**.

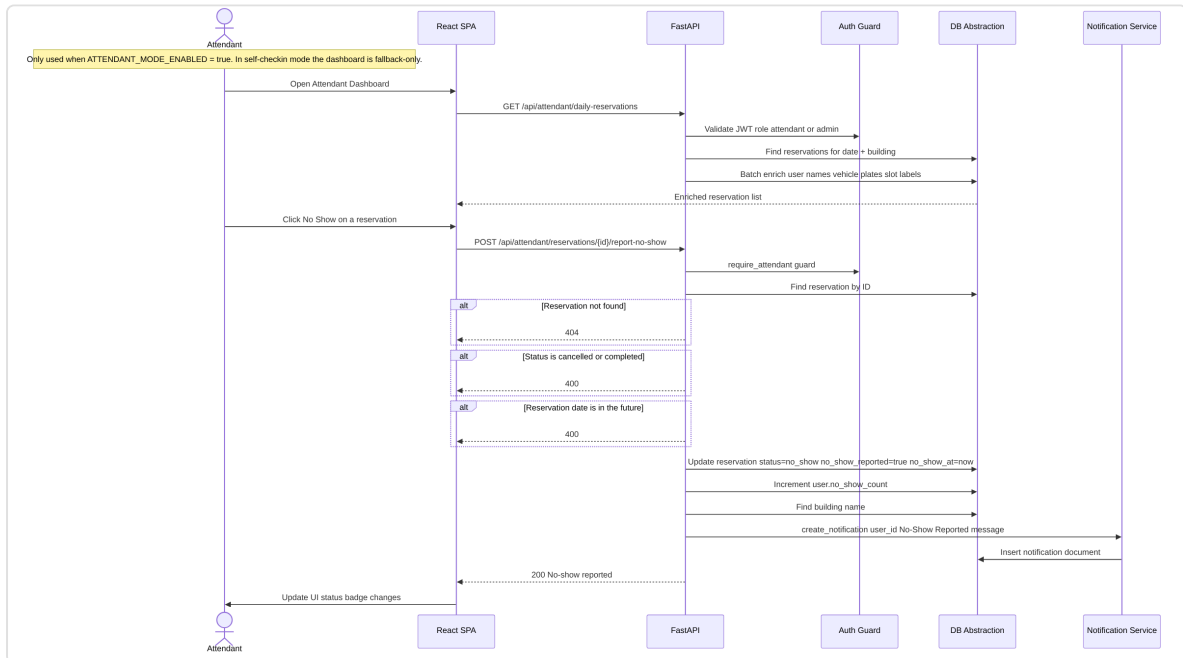

1. User Login Sequence

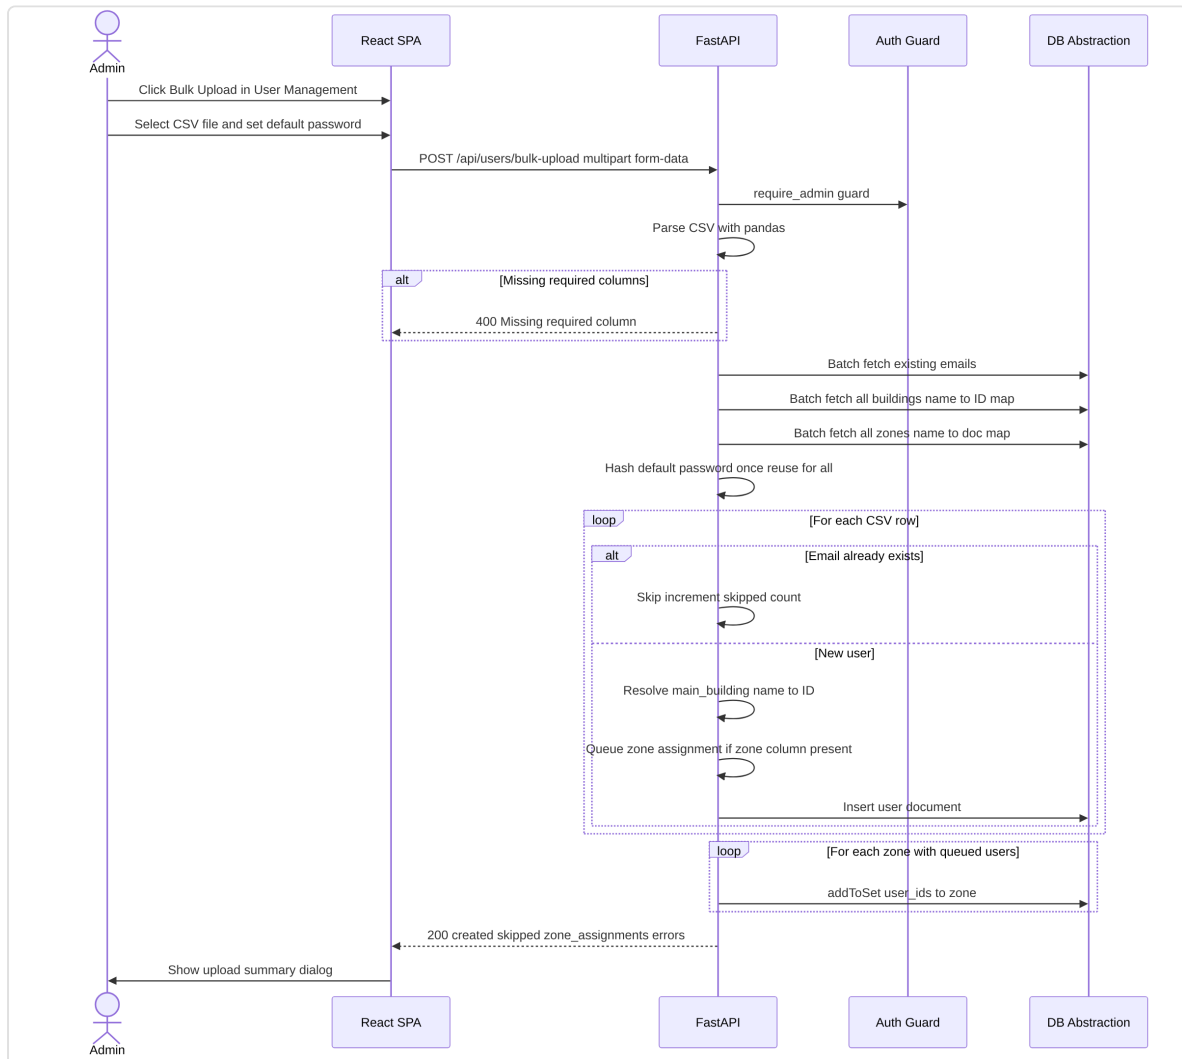

2. Parking Reservation Booking Sequence

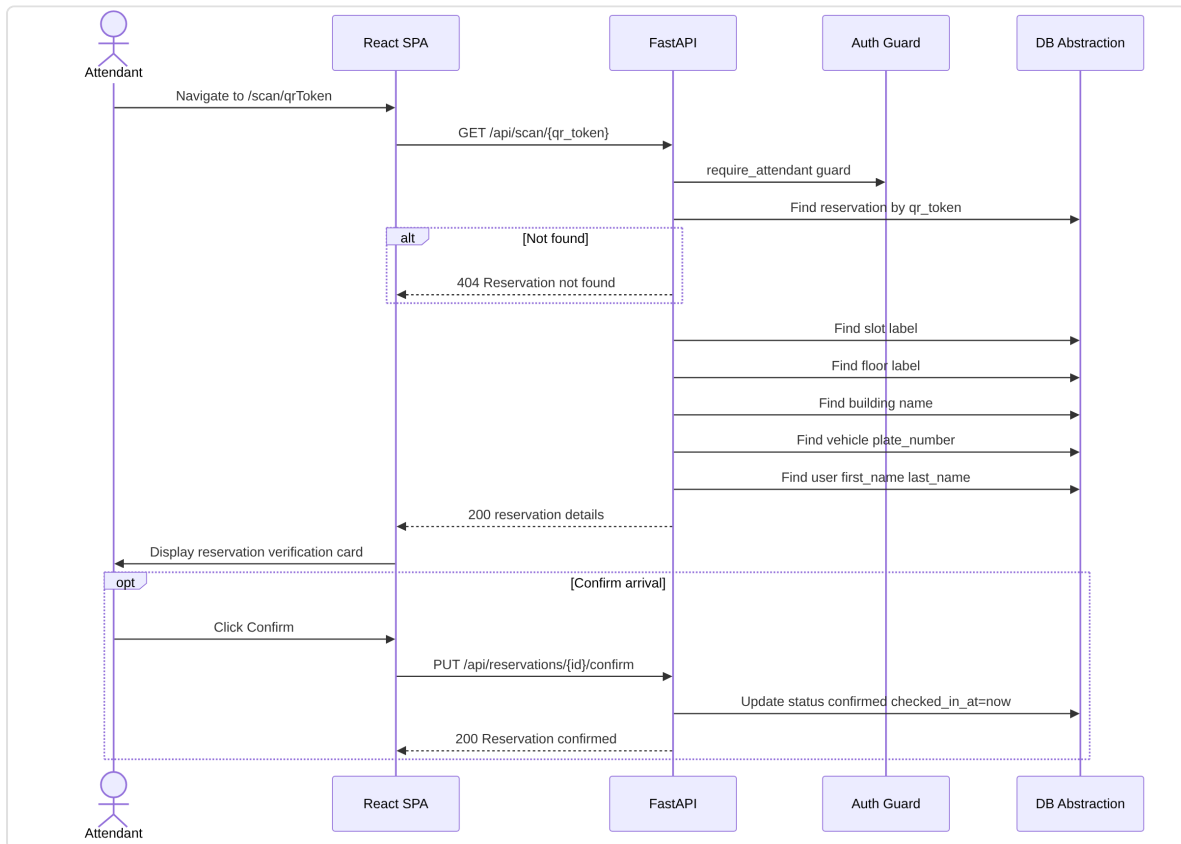

3. Attendant No-Show Reporting Sequence

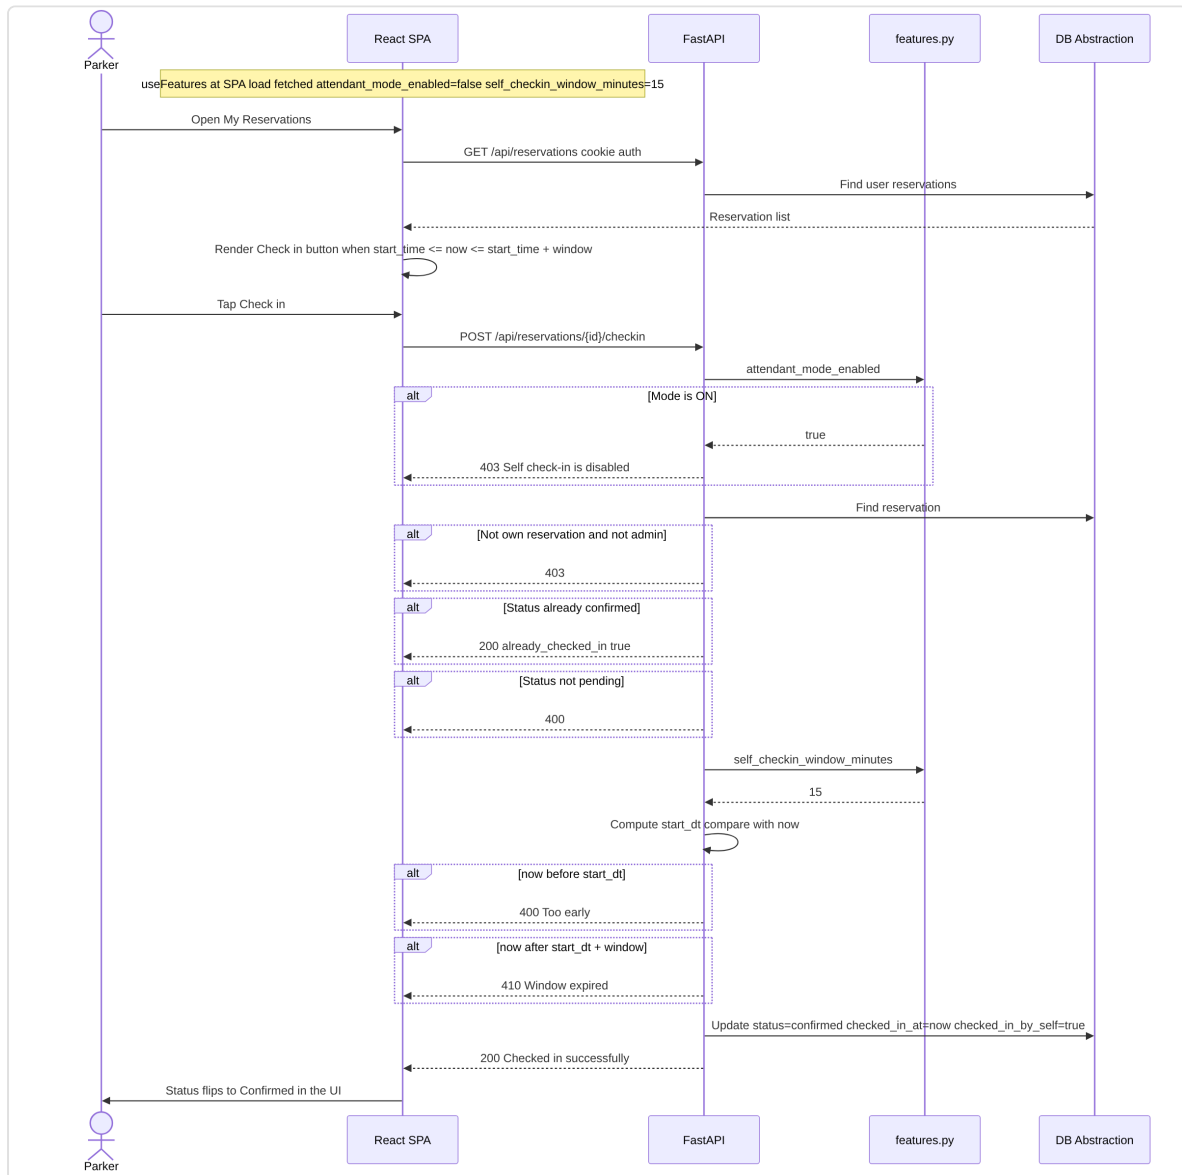

4. Admin Bulk User Upload Sequence

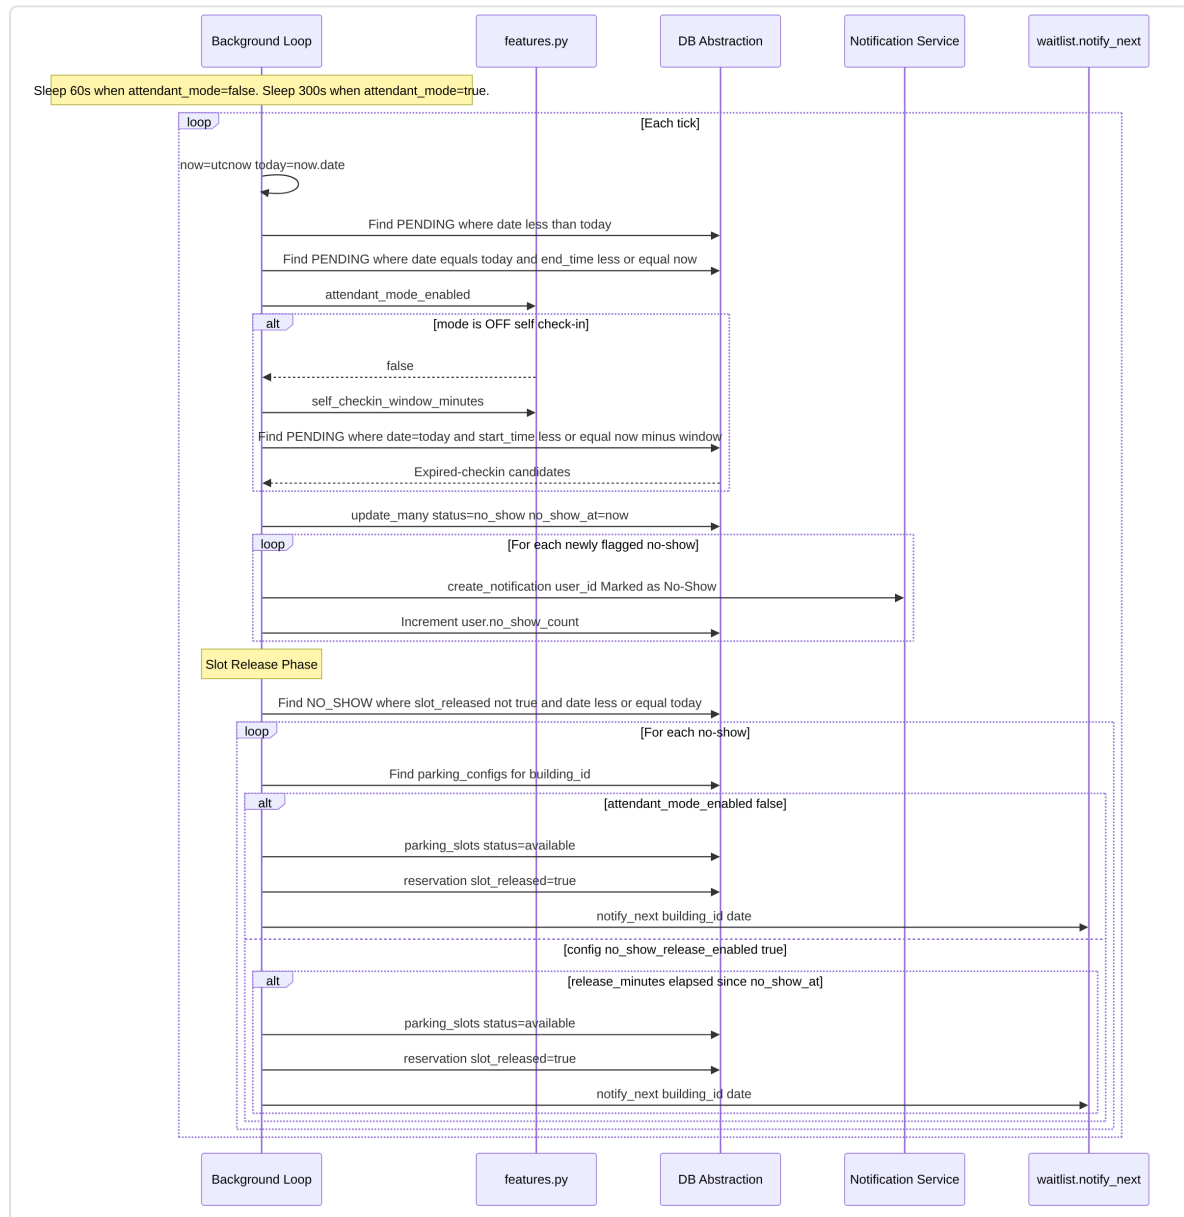

5. QR Code Scan Verification Sequence

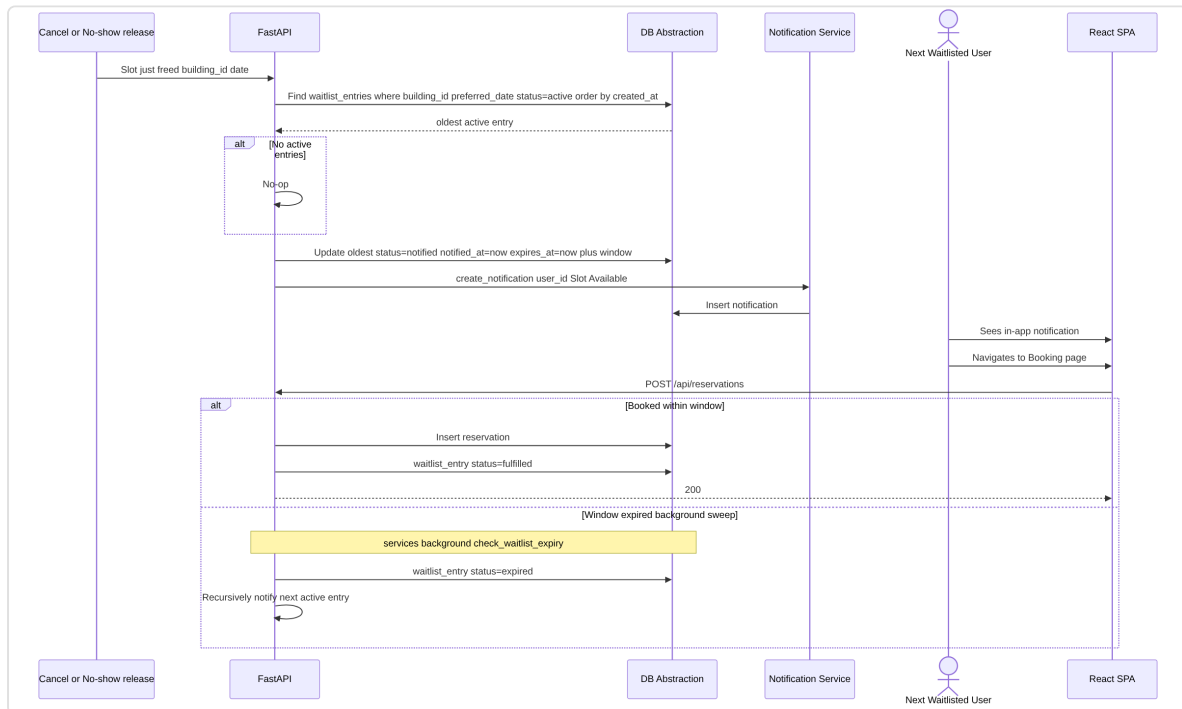

6. Self Check-In Sequence (Attendant Mode OFF)

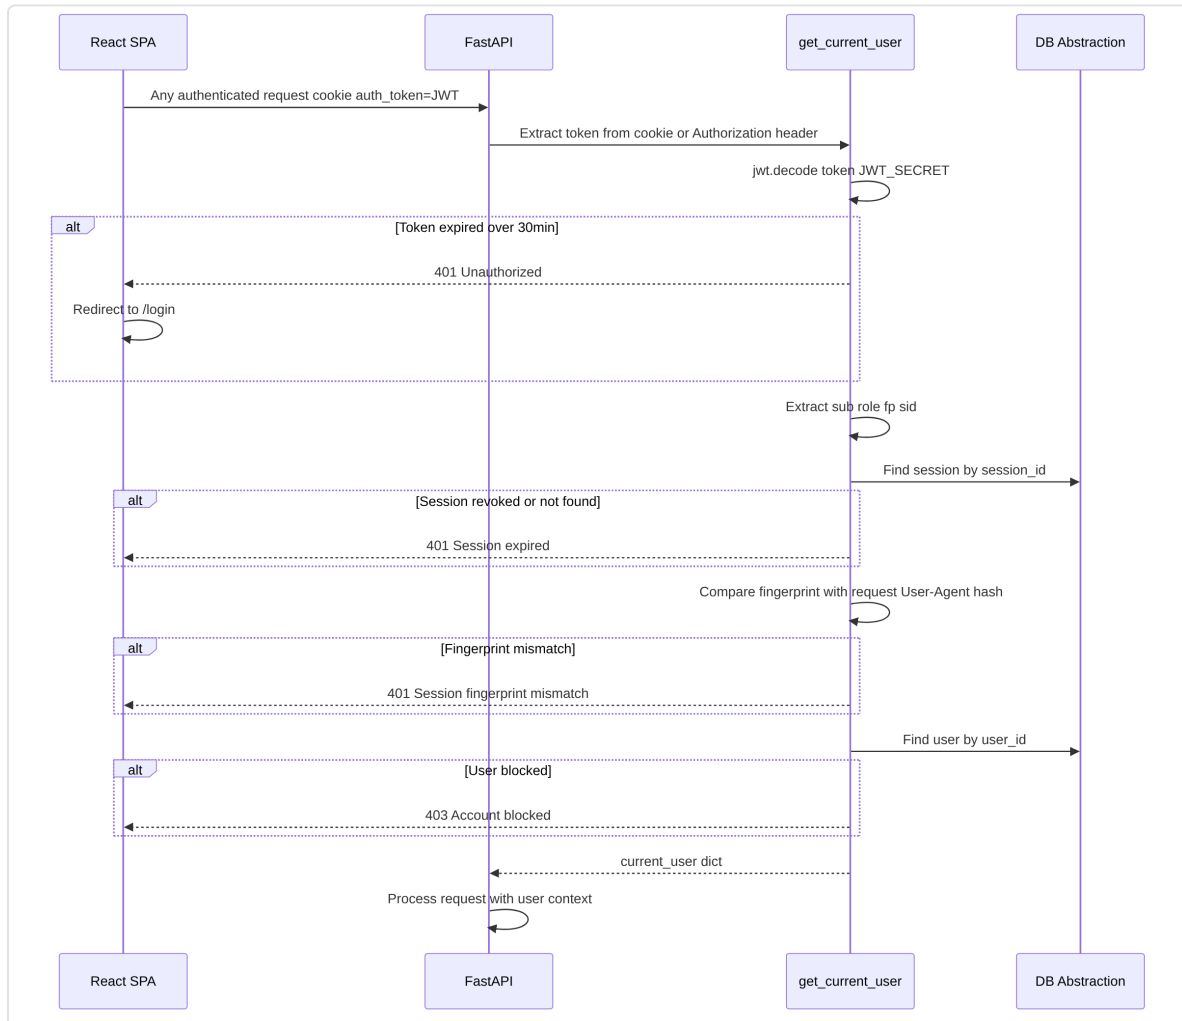

7. Background No-Show + Waitlist Notification Sequence

8. Waitlist Notification & Claim Sequence

9. Session Validation Sequence (Every Authenticated Request)
