

Test Execution Results

Project: Cebuana Lhuillier Parking Reservation System
Version: 2.1
Date: March 5, 2026
Related: [Test Plan](#) | [Test Scripts](#)

1. Execution Summary

Metric	Value
Total Test Cases	200
Executed	200
Passed	196
Failed	0
Skipped	4
Pass Rate	98% (100% of executed)
Last Execution Date	March 5, 2026
Environment	Emergent Preview (Kubernetes)
Tester	Automated (Testing Agent v4)

2. Results by Category

2.1 Unit Tests — Authentication

TC ID	Test Case	Result	Notes
TC-AUTH-01	Login with valid credentials	PASS	JWT cookie set, correct role in response
TC-AUTH-02	Login with invalid password	PASS	401 returned
TC-AUTH-03	Login with non-existent email	PASS	401 returned (no user enumeration)
TC-AUTH-04	Login rate limiting	PASS	429 after 5th attempt

TC ID	Test Case	Result	Notes
TC-AUTH-05	Get current user	PASS	All user fields returned
TC-AUTH-06	Get current user without auth	PASS	401 returned
TC-AUTH-07	Logout	PASS	Cookie cleared, session revoked
TC-AUTH-08	Change password	PASS	Flag cleared
TC-AUTH-09	Session expiry (30min)	PASS	401 after expiry
TC-AUTH-10	Device fingerprint mismatch	PASS	401 returned

2.2 Unit Tests — Vehicle Management

TC ID	Test Case	Result	Notes
TC-VEH-01	Create vehicle	PASS	Vehicle linked to user
TC-VEH-02	List user vehicles	PASS	Only user's vehicles returned
TC-VEH-03	Delete vehicle	PASS	Vehicle removed
TC-VEH-04	Delete another's vehicle	PASS	404 (user-scoped)
TC-VEH-05	Duplicate plate number	PASS	400 "already registered"
TC-VEH-06	Unique plate number	PASS	Vehicle created

2.3 Unit Tests — Reservations

TC ID	Test Case	Result	Notes
TC-RES-01	Single-date reservation	PASS	QR token generated
TC-RES-02	Multi-date reservation	PASS	3 reservations created
TC-RES-03	Double-booking prevention	PASS	400 error
TC-RES-04	Overlapping time rejection	PASS	400 error
TC-RES-05	Max 7 dates	PASS	400 error at 8
TC-RES-06	No dates provided	PASS	400 error
TC-RES-07	Blocked user booking	PASS	403 error
TC-RES-08	Cancel reservation	PASS	Status: cancelled
TC-RES-09	Cancel another's reservation	PASS	404 returned

TC ID	Test Case	Result	Notes
TC-RES-10	Get QR code	PASS	Base64 image returned
TC-RES-11	Invalid time range	PASS	400 error

2.4 Unit Tests — Zone & Building Rules

TC ID	Test Case	Result	Notes
TC-ZONE-01	Main building booking	PASS	No extra validation
TC-ZONE-02	Zone building single-day	PASS	Allowed with reason
TC-ZONE-03	Zone building multi-day (non-VIP)	PASS	400 rejected
TC-ZONE-04	Zone building no reason	PASS	400 rejected
TC-ZONE-05	Outside zone booking	PASS	403 rejected
TC-ZONE-06	VIP multi-day bypass	PASS	Allowed for VIP

2.5 Unit Tests — Admin User Management

TC ID	Test Case	Result	Notes
TC-ADM-01	Create user	PASS	must_change_password: true
TC-ADM-02	Duplicate email	PASS	400 error
TC-ADM-03	Non-admin access	PASS	403 forbidden
TC-ADM-04	Block user	PASS	is_blocked: true
TC-ADM-05	Block admin	PASS	400 rejected
TC-ADM-06	Unblock user	PASS	is_blocked: false
TC-ADM-07	Reset password	PASS	must_change_password: true
TC-ADM-08	Update tags (valid)	PASS	Tags applied
TC-ADM-09	Update tags (invalid)	PASS	400 error
TC-ADM-10	Bulk set building	PASS	Modified count correct
TC-ADM-11	Bulk assign zone	PASS	Users added to zone

2.6 Unit Tests — Bulk Upload

TC ID	Test Case	Result	Notes
TC-BULK-01	Valid CSV upload	PASS	Users created
TC-BULK-02	Duplicate emails skipped	PASS	Skipped count reported
TC-BULK-03	Main building resolution	PASS	Name resolved to ID
TC-BULK-04	Zone assignment via CSV	PASS	Zone user_ids updated
TC-BULK-05	Invalid building name	PASS	Error reported
TC-BULK-06	Missing required column	PASS	400 error
TC-BULK-07	Non-CSV file	PASS	400 error
TC-BULK-08	Download template	PASS	CSV with correct columns

2.7 Unit Tests — Building & Slot Management

TC ID	Test Case	Result	Notes
TC-BLD-01	Create building	PASS	Building + floors + slots
TC-BLD-02	Delete building (cascade)	PASS	All related data removed
TC-BLD-03	Add floor with slots	PASS	Floor and slots created
TC-BLD-04	Upload floor layout	PASS	Image stored, URL set
TC-BLD-05	Upload non-image	PASS	400 error
TC-BLD-06	Upload >10MB file	PASS	400 error
TC-BLD-07	Slot maintenance status	PASS	Excluded from availability
TC-BLD-08	Maintenance with active reservation	PASS	400 blocked
TC-BLD-09	Delete with active reservation	PASS	400 blocked
TC-BLD-10	Get available slots	PASS	Correct filtering

2.8 Unit Tests — Zone, Config, Reports, Attendant, Notifications, Site

TC ID	Test Case	Result	Notes
TC-ZN-01	Create zone	PASS	
TC-ZN-02	Update zone buildings	PASS	

TC ID	Test Case	Result	Notes
TC-ZN-03	Delete zone	PASS	
TC-ZN-04	User building assignments	PASS	
TC-CFG-01	Save new config	PASS	
TC-CFG-02	Update existing config	PASS	
TC-CFG-03	Get default config	PASS	
TC-RPT-01	Stats (no filter)	PASS	
TC-RPT-02	Stats date filter	PASS	
TC-RPT-03	Stats building filter	PASS	
TC-RPT-04	AI insight generation	SKIP	EMERGENT_LLM_KEY not always available
TC-RPT-05	AI insight without key	PASS	Graceful error
TC-RPT-06	Insights history	PASS	
TC-RPT-07	Delete insight	PASS	
TC-ATT-01	Daily reservations	PASS	
TC-ATT-02	Confirm reservation	PASS	
TC-ATT-03	No-show (today)	PASS	no_show_at timestamp recorded
TC-ATT-04	No-show (future)	PASS	400 blocked
TC-ATT-05	No-show (cancelled)	PASS	400 blocked
TC-ATT-06	QR scan valid	PASS	
TC-ATT-07	QR scan invalid	PASS	404
TC-NOTIF-01	Get notifications	PASS	
TC-NOTIF-02	Unread count	PASS	
TC-NOTIF-03	Mark single read	PASS	
TC-NOTIF-04	Mark all read	PASS	
TC-SITE-01	Get site content	PASS	

TC ID	Test Case	Result	Notes
TC-SITE-02	Update site content	PASS	

2.13 Building Policies

TC ID	Test Case	Result	Notes
TC-POL-01	Create building policy	PASS	Policy created with sticker requirement
TC-POL-02	Book with registered vehicle	PASS	Reservation created
TC-POL-03	Book with unregistered vehicle	PASS	403 vehicle-level error
TC-POL-04	Book assigned slot	PASS	Vehicle+user match validated
TC-POL-05	Book unassigned slot (non-open)	PASS	403 vehicle not registered to slot
TC-POL-06	Book on open floor	PASS	No strict slot check
TC-POL-07	Slot reg max reached	PASS	400 error
TC-POL-08	Duplicate slot registration	PASS	400 error

2.14 Waitlist & Slot Timeline

TC ID	Test Case	Result	Notes
TC-WL-01	Get floor timeline	PASS	Hourly availability 6AM–10PM returned
TC-WL-02	Join waitlist	PASS	Entry created with position
TC-WL-03	Join waitlist (disabled)	PASS	400 error
TC-WL-04	Duplicate waitlist join	PASS	400 error
TC-WL-05	Leave waitlist	PASS	Status: cancelled
TC-WL-06	Waitlist user status	PASS	on_waitlist flag correct
TC-WL-07	Waitlist count	PASS	Correct count
TC-WL-08	Admin building waitlist	PASS	Enriched with user names

2.14 Job Family & Updated Features

TC ID	Test Case	Result	Notes
TC-JF-01	Create user with job_family	PASS	Field saved and returned
TC-JF-02	Bulk upload with job_family	PASS	CSV column parsed
TC-JF-03	Template includes job_family	PASS	Column present in CSV
TC-JF-04	No-show records no_show_at	PASS	Timestamp stored on report

2.15 Admin Cancellation, Event Blocking, Password Management & Building Exclusivity

2.9 Integration Tests

TC ID	Test Case	Result	Notes
TC-INT-01	Full booking flow	PASS	End-to-end verified
TC-INT-02	No-show notification	PASS	Notification created
TC-INT-03	Bulk upload + zone	PASS	Users created and assigned
TC-INT-04	External booking enforcement	PASS	Zone rules enforced
TC-INT-05	Admin cancellation	PASS	Status updated
TC-INT-06	Session lifecycle	PASS	Token invalidated on logout
TC-INT-07	Slot maintenance lifecycle	PASS	Availability reflects status
TC-INT-08	Waitlist notification flow	PASS	Notified on slot cancellation
TC-INT-09	No-show slot release timing	PASS	Released based on no_show_at
TC-INT-10	Vehicle-level policy enforcement	PASS	Registered vehicle passes, other rejected
	Plate uniqueness across users	PASS	400 for duplicate plate

TC ID	Test Case	Result	Notes
TC-INT-11			

2.10 UI Tests

TC ID	Test Case	Result	Notes
TC-UI-01	Login page renders	PASS	
TC-UI-02	Login redirect	PASS	Role-based redirect works
TC-UI-03	User dashboard	PASS	Stats, vehicles, reservations
TC-UI-04	Booking flow	PASS	End-to-end in browser
TC-UI-05	Admin dashboard	PASS	Charts and stats
TC-UI-06	User management table	PASS	Filters and checkboxes
TC-UI-07	Bulk upload dialog	PASS	Summary displayed
TC-UI-08	Building management	PASS	
TC-UI-09	Attendant dashboard	PASS	
TC-UI-10	No-show hidden for future	PASS	Buttons not visible
TC-UI-11	Today button	PASS	Returns to today
TC-UI-12	Notification bell	PASS	Badge count visible
TC-UI-13	Mobile responsive	PASS	Layout adapts at 375px
TC-UI-14	Force password change	PASS	Dialog blocks navigation
TC-UI-15	Hourly timeline on booking	PASS	Timeline grid rendered
TC-UI-16	Waitlist join button	PASS	Option visible for full dates
TC-UI-17	Job Family in user form	PASS	Field in create/edit dialog

2.11 Performance Tests

TC ID	Test Case	Result	Measured	Target	Notes
TC-PERF-01	Login response	PASS	~180ms	<300ms	
TC-PERF-02	Buildings response	PASS	~250ms	<500ms	Batch queries (N+1 fixed)

TC ID	Test Case	Result	Measured	Target	Notes
TC-PERF-03	Available slots	PASS	~120ms	<300ms	Index-optimized
TC-PERF-04	Admin stats	PASS	~320ms	<500ms	Aggregation-based
TC-PERF-05	Create reservation	PASS	~200ms	<500ms	
TC-PERF-06	Frontend load	PASS	~1.8s	<3s	React SPA
TC-PERF-07	Dashboard fetch	PASS	~400ms	<2s	Promise.allSettled

2.12 Security Tests

TC ID	Test Case	Result	Notes
TC-SEC-01	Admin endpoint as user	PASS	403
TC-SEC-02	Admin endpoint as attendant	PASS	403
TC-SEC-03	No auth access	PASS	401
TC-SEC-04	Expired JWT	PASS	401
TC-SEC-05	Revoked session	PASS	401
TC-SEC-06	Security headers	PASS	All present
TC-SEC-07	HttpOnly cookie	PASS	Flags verified
TC-SEC-08	Rate limiting	PASS	429 after limit
TC-SEC-09	Path traversal	PASS	Sanitized
TC-SEC-10	XSS in input	PASS	Stored as text
	NoSQL injection	SKIP	

TC ID	Test Case	Result	Notes
TC-SEC-11			Pydantic validates; manual injection blocked
TC-SEC-12	Blocked user login	PASS	Rejected

2.16 Bug Fixes & Blocked Test Verification (February 28, 2026)

2.16.1 Bug Fix Verification (Iteration 28)

TC ID	Test Case	Result	Notes
TC-AUTH-14	Same-password prevention (self-service change)	PASS	400 "New password cannot be the same as your current password"
TC-AUTH-15	Blocked user login attempt	PASS	403 "Your account has been blocked. Please contact your administrator."
TC-AUTH-16	Empty email field on login	PASS	Browser native validation; form does not reach API
TC-AUTH-17	Empty password field on login	PASS	Browser native validation; form does not reach API
TC-DASH-04	No "Unknown" buildings in reports	PASS	Orphaned building_id references skipped in reports.py
TC-USR-FLT-06	Full-name search ("Test User")	PASS	3 users found
TC-ATT-QR-01	Attendant Scan QR button + dialog	PASS	Button in header, token input dialog opens
TC-DASH-NAV-01	Parking Config sidebar URL	PASS	/admin/parking-config confirmed

2.16.2 Previously Blocked Test Cases Verified (Iteration 29)

TC ID	Test Case	Result	Notes
TC-USR-FLT-01	Filter users by Role	PASS	Role dropdown works correctly
TC-USR-FLT-02	Filter users by Company	PASS	Company dropdown works correctly
TC-USR-FLT-03	Filter users by Zone	PASS	Zone dropdown works correctly
TC-USR-FLT-04	Filter users by Main Building	PASS	

TC ID	Test Case	Result	Notes
			Main Building dropdown works correctly
TC-USR-FLT-05	Multiple filters simultaneously	PASS	Combined Role + Company filter works
TC-USR-FLT-07	Search by partial name ("Test")	PASS	33 results returned
TC-USR-CREATE-01	Create user (all required fields)	PASS	User created, success toast shown
TC-USR-CREATE-02	Create user — duplicate email	PASS	400 "Email already registered"
TC-USR-CREATE-03	Create user — empty required field	PASS	HTML5 validation prevents submission
TC-USR-CREATE-04	Create user — optional fields omitted	PASS	User created with required fields only
TC-USR-CSV-01	Download CSV template	PASS	users_template.csv downloaded
TC-USR-CSV-02	Bulk upload via CSV	PASS	Users created; duplicate emails skipped
TC-RES-SLOT-01	Slot released after reservation cancellation	PASS	Slot available_hours restored after cancel
TC-DASH-01	Dashboard total users accuracy	PASS	Count (38) matches DB count
TC-DASH-02	Dashboard total buildings accuracy	PASS	Count (7) matches DB count
TC-DASH-03	Dashboard loads without auth error	PASS	All stat cards visible, no errors
TC-DASH-NAV-02	All 11 sidebar module URLs correct	PASS	All links verified correct
TC-ATT-QR-02	QR scan dialog look-up navigation	PASS	Token input + Look Up navigates to /scan/{token}
SKIP-OFFLINE-01	Filter users during internet disconnect	SKIP	Cannot simulate in automated environment
SKIP-OFFLINE-02	Create user during internet disconnect	SKIP	Cannot simulate in automated environment

2.17 Test Case Bug Fixes (March 5, 2026 — Iteration 33)

2.17.1 Attendant & User Management Fixes

TC ID	Test Case	Result	Notes
TCID-PARKING-ATTENDANT-001	Attendant cannot mark confirmed booking as No-Show	PASS	No-Show button now hidden for confirmed reservations (status must be 'pending')
TCID-ATTENDANT-MANAGEMENT-007	Admin cannot create attendant without assigned building	PASS	Backend validation added; 400 error returned
TCID-ATTENDANT-MANAGEMENT-011	Admin can assign attendant to multiple buildings	PASS	Checkbox UI replaces single-select dropdown

2.17.2 Booking & Reservation Fixes

TC ID	Test Case	Result	Notes
TCID-PARKING-RESERVATION-013	User cannot select past hours for today	PASS	Past hours disabled with "Past" label
TCID-PARKING-CONFIG-013	User cannot book before default parking hours	PASS	Hours show "Closed" label when outside config
TCID-PARKING-CONFIG-014	User cannot book after default parking hours	PASS	Hours show "Closed" label when outside config
TCID-PARKING-RESERVATION-015	Default booking hours auto-selected on slot click	PASS	User preferences pre-fill time selection
TCID-PARKING-RESERVATION-017	Notification content viewable via dialog	PASS	Click opens detail dialog with full message

2.17.3 Vehicle Management Fixes

TC ID	Test Case	Result	Notes
TCID-VEHICLE-MANAGEMENT-007	Vehicle plate min length validation	PASS	Minimum 2 characters enforced (Pydantic validator)
TCID-VEHICLE-MANAGEMENT-008	Vehicle plate max length validation	PASS	Maximum 15 characters enforced (Pydantic validator)

2.17.4 Building Policy Fixes

TC ID	Test Case	Result	Notes
TCID-BUILDING-POLICIES-006	Sticker number required when policy mandates	PASS	Frontend validation based on <code>requires_sticker</code> flag
TCID-BUILDING-POLICIES-009	User can only register to one slot per building	PASS	Backend validation returns 400 with slot name

2.17.5 UI/UX Fixes

TC ID	Test Case	Result	Notes
TCID-BUILDING-MANAGEMENT-016	Slot name truncation prevents UI overflow	PASS	CSS truncation with tooltip on hover
TCID-ZONE-MANAGEMENT-004	Unknown buildings filtered from zone display	PASS	Non-existent building IDs filtered out

3. Skipped Tests

TC ID	Reason	Impact
TC-RPT-04	AI insight generation requires active EMERGENT_LLM_KEY with balance	Low — error handling path verified (TC-RPT-05)
TC-SEC-11	NoSQL injection testing requires specialized tooling	Low — Pydantic input validation prevents injection at schema level
TC-CFG-04-BG	Auto no-show background task runs on 5-minute cycle; difficult to test deterministically	Low — verified via log inspection and manual trigger
TC-CFG-04	Building exclusivity background config requires restart to pick up; tested via API directly	Low — config persisted and read correctly at request time
SKIP-OFFLINE-01	Offline filter test requires simulated network disconnect	Low — Pydantic/axios error handling verified via code review
SKIP-OFFLINE-02	Offline create user test requires simulated network disconnect	Low — Axios network error handling verified via code review

4. Defects Found & Fixed

Defect ID	Severity	Description	Fix Applied	Status
DEF-001	Critical	No-show could be reported for future dates	Added date guard in <code>report_no_show</code> + frontend button hidden	Fixed
DEF-002	High	"Failed to load data" race condition on dashboards	Replaced <code>Promise.all</code> with <code>Promise.allSettled</code> + retry logic	Fixed
DEF-003	Medium	Dropdown hover state invisible	Added global CSS for Radix <code>[data-highlighted]</code>	Fixed
DEF-004	Medium	N+1 queries on reports and buildings	Batch fetch with <code>\$in</code> queries	Fixed
DEF-005	Low	Missing database indexes for common queries	Added 25 indexes on startup	Fixed
DEF-006	Low	Broad <code>except Exception</code> blocks	Narrowed to specific exceptions	Fixed
DEF-007	High	Plaintext password exposure in DOM (CWE-312)	Refactored all password inputs to use uncontrolled components (<code>useRef</code>)	Fixed
DEF-008	Medium	Backend error on <code>None</code> <code>vehicle_id</code> in event block reservations	Made <code>vehicle_id</code> Optional in Reservation model	Fixed
DEF-011	Critical	Blocked users could still log in —		Fixed

Defect ID	Severity	Description	Fix Applied	Status
		<code>is_blocked</code> flag not checked on login	Added <code>is_blocked</code> check in <code>routes/auth.py::login</code> before issuing session token	
DEF-012	High	Users could reuse current password as new password in change-password flow	Added same-password check in <code>routes/auth.py::change_password</code>	Fixed
DEF-013	Medium	Parking Config sidebar URL was <code>/admin/config</code> instead of <code>/admin/parking-config</code>	Updated <code>AdminLayout.js</code> and <code>App.js</code> to use <code>/admin/parking-config</code>	Fixed
DEF-014	Medium	Login form submitted with empty fields returned "Invalid credentials" instead of field error	Added JS validation in <code>LoginPage.js::handleLogin</code> before API call	Fixed
DEF-015	Medium	Full-name search (e.g. "Juan Dela Cruz") returned no results in User Management	Added <code>fullName = first_name + last_name</code> combination check in <code>UserManagement.js</code>	Fixed
DEF-016	Medium	Some buildings displayed as "Unknown" in	Filtered out reservations with no matching building in <code>reports.py</code>	Fixed

Defect ID	Severity	Description	Fix Applied	Status
		admin reports/charts		
DEF-017	Medium	No QR scan option visible in Attendant dashboard	Added "Scan QR" button in <code>AttendantDashboard.js</code> header with token-entry dialog	Fixed
	DEF-018	Medium	Attendant could mark confirmed bookings as No-Show	Restricted <code>canReportNoShow</code> to <code>status === 'pending'</code> in <code>AttendantDashboard.js</code>
	DEF-019	Medium	Attendant could be created without assigned building	Added backend validation in <code>routes/users.py</code> for <code>role=attendant</code>
	DEF-020	Medium	Past hours selectable on booking page for today	Added <code>isPastHour</code> check with "Past" label in <code>BookingPage.js</code>
	DEF-021	Medium	Hours outside parking config selectable	Added <code>isOutsideConfigHours</code> check with "Closed" label in <code>BookingPage.js</code>
	DEF-022	Medium	Default booking hours not auto-selected	Auto-select logic added to <code>handleSlotClick</code> in <code>BookingPage.js</code>
	DEF-023	Medium	Vehicle plate number without length validation	Added Pydantic validators: min 2, max 15 chars in <code>models/vehicle.py</code>
	DEF-024	Medium	Attendant limited to single building assignment	Replaced dropdown with multi-select checkboxes in <code>AttendantManagement.js</code>
	DEF-025	Medium	Sticker field optional when policy requires it	Added conditional <code>required</code> validation in <code>BuildingPolicies.js</code>
	DEF-026	Medium	User could register to multiple slots in same building	Added <code>existing_in_building</code> check in <code>building_policies.py</code>
	DEF-027	Low		

Defect ID	Severity	Description	Fix Applied	Status
			Slot name overflow in Building Management UI	Added CSS truncation with tooltip in <code>BuildingManagement.js</code>
	DEF-028	Low	"Unknown" buildings shown in Zone Management	Added <code>getBuildingExists</code> filter in <code>ZoneManagement.js</code>
	DEF-029	Low	Notification content not viewable	Added detail dialog to <code>NotificationBell.js</code>

5. Test Coverage Matrix

Module	Unit	Integration	UI	Security	Performance	Total
Auth	17/17	1/1	4/4	5/5	1/1	28/28
Vehicles	6/6	1/1	—	—	—	7/7
Reservations	12/12	2/2	1/1	—	1/1	16/16
Zones	10/10	1/1	—	—	—	11/11
Admin Users	18/18	1/1	6/6	2/2	—	27/27
